

KEY DECISION: SHOULD I SUBMIT MY TEST SCORES?

You can use this worksheet to determine if you should submit your test scores to a test-optional college, using the reasoning:

Yes--> If your scores fall **WITHIN** the middle 50% range of last year's incoming students.

No--> If your scores fall **BELOW** the middle 50% range of last year's incoming students.

An exception may be if your scores are below the 50% range, but are an upgrade to your GPA, in which case it could benefit you.

SAT

CR ____ M ____
Combined _____

ACT

Eng _____ M _____ R _____ S _____
Composite _____

Do your scores fall in the middle 50% range of who they typically admit?

	YES	NO
